This flyer is based upon work from COST Action CA18123 The European Family Support Network, supported by COST (European Cooperation in Science and Technology).

COST (European Cooperation in Science and Technology) is a funding agency for research and innovation networks. Our Actions help connect research initiatives across Europe and enable scientists to grow their ideas by sharing them with their peers. This boosts their research, career and innovation.

The EurofamNet Final Event aims to promote the dissemination of EurofamNet results at policy, practice and research level, to create a conversation around sustainability impulse for the network, and to consolidate the network as a reference at the European level. It is also an opportunity for the members and attendees to interact, network and enjoy.
